

HOSPICE  
RED RIVER VALLEY

## Did you know?

Spiritual care is vital to the well-being of a person. Such care is where we find our purpose, direction in life, values, self-worth and morals.

Chaplains are experts in the field of ministry. As a required part of the hospice interdisciplinary team, hospice chaplains promote caring for the whole person. Spiritual care is associated with better patient quality of life near death. Chaplains help patients and families:

- Cope with their illnesses
- Align care plans with their values, promoting a culture of respect and dignity
- Tap into their inner strengths and resources

Hospice chaplains promote caring for the whole person, and recognize that spiritual issues often arise at the end of life. Hospice of the Red River Valley's chaplains are available to provide individualized care to help all patients and their family members seek understanding and spiritual comfort, regardless of their faith backgrounds or beliefs.

"You are never too old to set another goal or to dream a new dream."

– C.S. Lewis
